

Veritas Classical Academy

News – March 2005

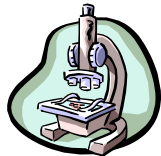

Now Enrolling for Fall 2005

Applications are now being accepted for grades K-7 for the 2005-2006 Academic Year.

The April 1st deadline has been extended until April 8th to accommodate any families who have not attended an Information Session. The last Information Session for this Spring is scheduled for Monday, April 4th from 7:00-8:30pm at the home of Curt and Karla Stafford. Parents must have attended an information session before completing an application for their child for 2005-2006. Individuals interested in finding out more about Veritas, including teaching opportunities, are also encouraged to attend.

Please refer to our website for more information, directions to the Information Session, and to download new student application forms.

Science Fair

Veritas is hosting its first Science Fair on Friday, April 8th, from 6:45-8:00pm at Trinity Baptist Church. All Veritas students, grades 2-6, are encouraged to participate. One of the primary objectives for the fair is for students to use and become familiar with the scientific method. Projects could include research of a particular topic, an experiment, a demonstration, or an invention. Most importantly, the topic should be one that

interests the student and inspires him or her to investigate more.

The public is welcome to come view the displays and a ribbon presentation will be held at 7:00pm for all participants. For more information please call Julie Hodgden at 366-6032 or through email at julhodgden@cox.net.
